

# AR Recording Sheet

Use this recording sheet to help students keep track of AR books they are reading at home and at school. Students can record the book title, author and quiz #. Students then highlight each book after they take a quiz on it.

Great for use at home where students may read several books at night or over the weekend. This way students don't forget which books they have read and don't forget which books they still need to take a quiz on.
